Scale: Excellent (5), Very Good (4), Good (3), Acceptable (2), Poor (1)	

Comments:

- The training was very informative and interactive! I learned a lot of new information that I can use with my families!!
- Very interesting an informative. Not that it was new material but it was great to hear it from another perspective.
- The sign language aspect was interesting and informative. The strategies they shared were very practical and can be easily implemented.
- I really enjoyed learning what y'all teached us today
- They was very good. The presentation was well explained and they demonstrated through everything they did.

- This was a fantastic training. It was very informative and gave many ideas and examples of ways to teach social emotional and self control. Great training!
- This session was really informative and fun! I hope I can bring back these ideas to our HS program. However I left early because the person working at the door (I don't know her role- the room monitor?) would not stop talking. Loudly. It was disrespectful to the presenters and made it difficult to focus.
- Great presentation. Enjoyed them having everyone get involved
- I loved the incorporation of sign language and music. It was a great way to start the day. As a parent it gave me great insight on how to handle my daughter that can be a handful at times
- Very awesome, loved the interaction.
- Loved it. Best session so far!!!
- Amazing session. Loved it here and in Dallas!
- Very engaging & informative session. My favorite yet!
- Very engaging!
- Very informative and relevant training to practice what I learned in this training at my work. The presenters are very knowledgeable and were very well prepared with a lot of helpful material, ideas and resources that will help me to support our young children by using sign language at every time.
- The session was awesome it was interesting with lots of interaction. His assistants team taught sign language while he did the stories. The team worked very well together and kept the audience interest . My thoughts was teaching self control for children and introducing sign language which is important especially for non verbal toddlers to pick up on and express their feelings. Good job team good training
