To Whom It May Concern:

Lillian Hubler has provided numerous professional development sessions for us at Region 4 Education Service Center and is scheduled to present at our Preschool Summer Institute on July 28, 2011. She has provided training to preschool special education teachers, speech and language pathologists, and bilingual prekindergarten teachers. We have purchased many of her materials to go along with the trainings and have found them to be helpful in supporting implementation back in the classrooms.

Lillian and her materials have made a difference in our classrooms especially as it relates to the preschoolers with disabilities being able to engage and participate in activities and daily routines in the classroom.
